## CEO and CFO Comments

"Fourth quarter results marked a strong finish to a solid year. We achieved our 13<sup>th</sup> consecutive quarter of system sales growth since the spin-off, and our operating profit grew double digits," said Joey Wat, CEO of Yum China. "In 2019, we expanded our footprint with over a thousand new stores, setting a new record for Company annual store openings and further strengthening our leading market position. We continue to innovate and invest across multiple fronts to ensure an excellent customer experience, both online and in-store."

Ms. Joey Wat continued, "Looking into 2020, the coronavirus outbreak is a major public health situation in China. Our top priority is the health and safety of our employees and customers. We have implemented various preventative measures across our restaurants and other workplaces to help protect our employees and customers. We will continue to monitor this fluid situation and respond accordingly. Despite this challenge and disruption to our business, we remain confident in the long-term market potential in China. We are differentiated by our world-class development, operations and innovation capabilities, which drove our success in the past and will help sustain our growth for years to come."

Andy Yeung, CFO of Yum China, added, "Our solid profit growth and healthy balance sheet enabled us to return \$442 million to shareholders in 2019 through dividends and share repurchases. Looking ahead, while it is difficult to fully ascertain the expected impact of the coronavirus outbreak at this time, we can reasonably expect it to materially affect our 2020 sales and profits. Commodity and wage inflation are also expected to remain challenging, especially in the first half. Despite the headwinds, we are committed to grow in China and intend to step up our investment in digital, supply chain and emerging brands to support that growth."

## Dividend and Share Repurchase

- The Board of Directors declared a cash dividend of \$0.12 per share on Yum China's common stock, payable as of the close of business on March 25, 2020 to shareholders of record as of the close of business on March 4, 2020.
- During the fourth quarter, we repurchased approximately 1.3 million shares of Yum China common stock for \$57.2 million at an average price of \$43.94 per share.

## Digital and Delivery

- As of December 31, 2019, the KFC loyalty program had over 215 million members and the Pizza Hut loyalty program had over 70 million members, an increase of 35% and 33%, respectively, year over year.
- Delivery contributed to 23% of Company sales in the fourth quarter of 2019, an increase of 3 percentage points year over year. Delivery services are now available in 1,249 cities, up from 1,118 cities at the end of the prior year period.
- Digital orders, including delivery, mobile orders and kiosk orders, accounted for 61% of Company sales in the fourth quarter of 2019, an increase of 17 percentage points year over year.

- The Company opened 360 new stores in the fourth quarter and 1,006 new stores for the full year 2019, mainly driven by development of the KFC brand.
- The Company remodeled 416 stores in the fourth quarter and 972 stores for the full year 2019.

## 2020 Outlook

- The Company provides the following fiscal year 2020 targets, subject to revision based on the impact from the coronavirus:
  - Between 800 and 850 gross new stores.
  - Capital expenditures between \$500 million and \$550 million.

## Impact of Coronavirus Outbreak

Since the start of the year, the novel coronavirus outbreak in China has significantly impacted the Company's operations. The situation is complex and rapidly evolving, and the Company cannot yet fully ascertain the expected impact. However, based on information currently available, the Company believes that the outbreak is likely to have a materially adverse impact on the Company's operating and financial results for the first quarter of 2020 and full year 2020.

The Company has taken a number of measures to protect its employees, customers and business partners, including the temporary closure of more than 30% of its restaurants in China. For restaurants that remain open, same-store sales since the Chinese New Year holiday period were down 40-50% compared to the comparable Chinese New Year holiday period in 2019, due to shortened operating hours, reduced traffic and other factors related to the outbreak. At this time, the Company cannot forecast when the closed restaurants will re-open (and at what rate) and the traffic will be restored (and at what level), or the other factors relating to the outbreak that will continue to impact the Company's operations. Furthermore, the Company may be required or otherwise decide to close additional stores, reduce operating hours, or take other steps, as the situation warrants.

As a result of the outbreak, the Company may experience operating losses for the first quarter of 2020, and if the sales trend continues, for the full year 2020. Future operations, as well as the Company's cash flows and financial position, may be materially and adversely influenced by further developments related to the outbreak, including potential additional announcements and actions from the central government and local authorities, disruption in our supply chain, inability to provide safety measures to protect our employees, or other reasons.

In this press release:

- The Company provides certain percentage changes excluding the impact of foreign currency translation ("F/X"). These amounts are derived by translating current year results at prior year average exchange rates. We believe the elimination of the F/X impact provides better year-to-year comparability without the distortion of foreign currency fluctuations.
- System sales growth reflects the results of all restaurants regardless of ownership, including Company-owned, franchise and unconsolidated affiliate restaurants that operate our restaurant concepts, except for non-Company-owned restaurants for which we do not receive a sales-based royalty. Sales of franchise and unconsolidated affiliate restaurants typically generate ongoing franchise fees for the Company at a rate of approximately 6% of system sales. Franchise and unconsolidated affiliate restaurant sales are not included in Company sales in the Condensed Consolidated Statements of Income; however, the franchise fees are included in the Company's revenues. We believe system sales growth is useful to investors as a significant indicator of the overall strength of our business as it incorporates all of our revenue drivers, Company and franchise same-store sales as well as net unit growth.
- Effective January 1, 2018, the Company revised its definition of same-store sales growth to represent the estimated percentage change in sales of food of all restaurants in the Company system that have been open prior to the first day of our prior fiscal year. We refer to these as our "base" stores. Previously, same-store sales growth represented the estimated percentage change in sales of all restaurants in the Company system that have been open for one year or more, and the base stores changed on a rolling basis from month to month. This revision was made to align with how management measures performance internally and focuses on trends of a more stable base of stores.
- Company Restaurant profit ("Restaurant profit") is defined as Company sales less expenses incurred directly by our Company-owned restaurants in generating Company sales. Company restaurant margin percentage is defined as Restaurant profit divided by Company sales.

**Reconciliation of Reported GAAP Results to Adjusted Measures  
(in millions, except per share data)**

(unaudited)

In addition to the results provided in accordance with US Generally Accepted Accounting Principles ("GAAP") in this press release, the Company provides measures adjusted for Special Items, which include Adjusted Operating Profit, Adjusted Net Income, Adjusted EPS, Adjusted Effective Tax Rate and Adjusted EBITDA, which we define as net income including noncontrolling interests adjusted for income tax, interest income, net, investment gain or loss, depreciation, amortization and other items, including store impairment charges and Special Items. The Special Items consist of impairment on intangible assets and goodwill attributable to the Daojia business, gain recognized from the re-measurement of our previously held equity interest in Wuxi KFC at fair value upon acquisition and transition tax impact from the Tax Cuts and Jobs Act of 2017 (the "Tax Act"), as described in the accompanying notes. The Company excludes impact from Special Items for the purpose of evaluating performance internally. Special Items are not included in any of our segment results. In addition, the Company provides Adjusted EBITDA because we believe that investors and analysts may find it useful in measuring operating performance without regard to items such as income tax, interest income, net, investment gain or loss, depreciation, amortization and other items, including store impairment charges and Special Items. These adjusted measures are not intended to replace the presentation of our financial results in accordance with GAAP. Rather, the Company believes that the presentation of these adjusted measures provides additional information to investors to facilitate the comparison of past and present results, excluding those items that the Company does not believe are indicative of our ongoing operations due to their nature. These adjusted measures should not be considered in isolation or as a substitute for GAAP financial results, but should be read in conjunction with the unaudited Condensed Consolidated Statements of Income and other information presented herein. A reconciliation of the most directly comparable GAAP measures to adjusted measures is presented as below.

**Notes to the Condensed Consolidated Statements of Income, Condensed Consolidated Balance Sheets,  
Condensed Consolidated Statements of Cash Flows and Reconciliation of Reported GAAP Results to Adjusted Measures  
(in US\$ million)  
(unaudited)**

(a) Amounts presented as of and for the quarter and year ended December 31, 2019 are unaudited, and the Company's Annual Report on Form 10-K for the year ended December 31, 2019 may contain updates to the information disclosed in this press release.

(b) During the year ended December 31, 2019 and 2018, we recorded an impairment charge of \$11 million and \$12 million, respectively, on intangible assets and goodwill attributable to the Daojia business. It was included in Closures and impairment expenses in our Condensed Consolidated Statement of Income, but was not allocated to any segment for performance reporting purposes. We recorded a tax benefit of \$1 million and \$3 million associated with the impairment, respectively, and allocated \$2 million and \$1 million of the after-tax impairment charge to noncontrolling interests, respectively.

(c) As a result of the acquisition of Wuxi KFC in the first quarter of 2018, the Company recognized a gain of \$98 million from the re-measurement of our previously held 47% equity interest at fair value, which was not allocated to any segment for performance reporting purposes.

(d) The tax expense was determined based upon the nature, as well as the jurisdiction, of each Special Item at the applicable tax rate.

(e) In the fourth quarter of 2018, we recognized a tax benefit of \$36 million as a result of adjusting the provisional amount of transition tax previously recorded. We completed the evaluation of the impact on our transition tax computation based on the final regulations released by the U.S. Treasury Department and the U.S. Internal Revenue Service in the first quarter of 2019 and recorded an additional tax expense of \$8 million for the transition tax accordingly.

The above tables reconcile segment information, which is based on management responsibility, with our Condensed Consolidated Statements of Income.

(1) Starting from the first quarter of 2019, our newly developed COFFii & JOY concept and e-commerce business became operating segments, as their financial results started being regularly reviewed by the Company's chief operating decision maker. Accordingly, our six non-reportable operating segments, reflecting the operations of East Dawning, Little Sheep, Taco Bell, Daojia, COFFii & JOY and our e-commerce business, are combined and referred to as All Other Segments, as those operating segments are insignificant both individually and in the aggregate. Segment financial information for prior quarters has been recast to align with this change in segment reporting. There was no impact on the condensed consolidated financial statements of the Company as a result of this change.

(2) Corporate and unallocated expenses comprise items that are not allocated to segments for performance reporting purposes. Amount includes revenues and expenses associated with transactions with franchisees and unconsolidated affiliates such as inventory procurement and other services provided to franchisees and unconsolidated affiliates. The Corporate and Unallocated column in the above tables includes, among other amounts, all amounts that we have deemed Special Items. See "Reconciliation of Reported GAAP Results to Adjusted Measures".
