Form 10

Exhibit 99.1

General

1. We note that you have entered into investment and shareholder's agreements with two investors in which the company will receive \$460 million immediately following the distribution in exchange for approximately 5% of the common stock of the company, warrants to purchase an additional 2% of the common stock of the company and board designation rights. We also note that the number of shares of common stock to be issued may be adjusted by reference to an 8% discount to the volume weighted average trading price over a 30-day period following the distribution. Based on the foregoing, please explain to us whether the shareholders who receive common stock in the distribution are providing consideration or giving up value for the spun-off shares within the meaning of Section 2(a)(3) of the Securities Act.
