

Yum China Reports Third Quarter 2022 Results

*Total Revenues grew 5%; System Sales grew 5% in constant currency, despite temporary closures
Delivered \$316 million Operating Profit, representing 77% growth, through strong execution
Opened 621 net new stores year-to-date, on track to meet full-year net new store target of 1,000 to 1,200*

Shanghai, China (November 2, 2022) – Yum China Holdings, Inc. (the "Company" or "Yum China") (NYSE: YUMC and HKEX: 9987) today reported unaudited results for the third quarter ended September 30, 2022.

Impact of COVID Outbreak and Mitigation Efforts

The COVID pandemic continued to impact the Company's operations and results in the third quarter. COVID-related health measures remained in effect across China, impacting travel and social activities. Despite the volatile environment, the Company grew system sales in the quarter by 5% year over year and outpaced the 2% national restaurant industry average for the period.

We captured the growing demand for delivery and takeaway which offset the subdued dine-in volume. Same-store sales for the quarter recovered to the same level a year ago but remain below pre-COVID 2019 levels. From a timing perspective, same-store sales recovered sequentially in July and August, with August exceeding the prior year level. This is primarily due to lapping the Delta variant outbreak in the prior year period. However, same-store sales percentage declined year over year in September as preventive health measures were tightened. In September, on average, approximately 900 of our stores were temporarily closed or offered only takeaway and delivery services, compared to approximately 400 stores on average in July and August.

Entering the fourth quarter, new infections continued to increase in October with resurgent outbreaks across China. In October, approximately 1,400 of our stores were either temporarily closed or offered only takeaway and delivery services. Nationwide, consumers are traveling less and reducing expenditures. According to government statistics, for the seven-day National Day holiday starting October 1, the number of travelers and related travel spending was down 18% and 26%, respectively, compared to the same holiday period last year. The COVID situations remain uncertain with regional outbreaks continuing to impact our operations. Against this backdrop, we will stay nimble with our contingency planning, ready to pivot with changing market conditions.

Third Quarter Highlights

- **Total revenues** increased 5% year over year to \$2.68 billion from \$2.55 billion (an 11% increase excluding foreign currency translation ("F/X")).
- **Total system sales** increased 5% year over year, with increases of 5% at KFC and 7% at Pizza Hut, excluding F/X.
- **Same-store sales** were flat year over year, with flat growth at KFC and an increase of 2% at Pizza Hut, excluding F/X.
- Opened 239 **net new stores** during the quarter; total store count reached 12,409 as of September 30, 2022.
- **Restaurant margin** was 18.8%, compared with 12.2% in the prior year period.
- **Operating Profit** increased 77% year over year to \$316 million from \$178 million (an 86% increase excluding F/X).
- **Adjusted Operating Profit** increased 89% year over year to \$318 million from \$168 million (a 99% increase excluding F/X).
- Effective tax rate was 29.9%.
- **Net Income** increased 98% to \$206 million from \$104 million in the prior year period, primarily due to the increase in Operating Profit, partially offset by the net loss from our mark-to-market investment in Meituan Dianping.
- **Adjusted Net Income** increased 117% to \$208 million from \$96 million in the prior year period (a 72% increase excluding the net losses of \$12 million and \$32 million in the third quarter of 2022 and 2021, respectively, from our mark-to-market equity investments; an 81% increase if further excluding F/X).
- **Diluted EPS** increased 104% to \$0.49 from \$0.24 in the prior year period.

- **Adjusted Diluted EPS** increased 123% to \$0.49 from \$0.22 in the prior year period (a 79% increase excluding the net losses from our mark-to-market equity investments in the third quarter of 2022 and 2021, respectively, a 90% increase if further excluding F/X).
- Results for the current year period include the consolidation of Hangzhou KFC.

Note: All comparisons are versus the same period a year ago.

Percentages may not recompute due to rounding.

System sales and same-store sales percentages exclude the impact of F/X. Effective January 1, 2018, temporary store closures are normalized in the same-store sales calculation by excluding the period during which stores are temporarily closed.

CEO and CFO Comments

Joey Wat, CEO of Yum China, commented, "We achieved outstanding performance in the third quarter with fantastic growth, both top-line and bottom-line. In the past two years, we have learned to navigate through uncertainties and volatilities. During tougher times, our resilient business model and agility has helped us to effectively manage the negative impact of the pandemic. As the market situation became relatively calmer in July and August, we successfully captured the upsides and delivered strong results. By adapting and innovating, we have further strengthened our business fundamentals. Our efforts to improve our cost structure make us more nimble and efficient. This allows us to offer great value to customers without sacrificing profitability. Our in-house and tailor-made supply chain management system empowers us to innovate amazing new products and launch at scale with great speed. In just two years, we established expertise in beef burgers, capturing meaningful market share. Also, our digital capabilities continue to lead the industry. Our loyalty programs now have over 400 million members with great potential to be unleashed."

Wat continued, "I am also excited about our recent Hong Kong primary listing conversion and inclusion in Southbound Stock Connect programs. We believe this new status will provide additional access to investors and broaden our shareholder base. Looking ahead, we are confident about unlocking the long-term opportunities in China. Our innovation in store formats has enabled us to further penetrate and continue to lower upfront investment. The strong performance of our new stores gives us confidence to open new and profitable stores at a robust pace. We will continue to execute our RGM (Resilience-Growth-Moat) strategic framework to capture growth opportunities and bolster our market-leading position amidst rapidly changing conditions."

Andy Yeung, CFO of Yum China, stated, "We expanded restaurant margins and delivered meaningful growth in operating profit in the quarter. This was achieved by our continuous efforts in rebasing the cost structure, improving efficiencies and securing temporary reliefs. Compared to substantial sales deleveraging headwinds in past quarters, we benefited from favorable operating leverage in the third quarter with sequential improvement in sales. Looking into the fourth quarter, we expect the COVID situation to remain uncertain. Conditions in October continued to deteriorate from September. Intermittent outbreaks along with downward pressure on the economy and cautious consumer spending are likely to negatively impact sales momentum. At the same time, we continue to face cost pressures from the inflationary environment. Fourth quarter is seasonally a low quarter in terms of sales and profit, thus

profitability could be more susceptible to fluctuations in sales and operations. Despite the headwinds, we have strong capabilities to capture sales and proactively manage cost. We remain committed to growing our store portfolio and generating shareholder returns for the long term.”

Share Repurchases and Dividends

- During the third quarter, we repurchased approximately 0.27 million shares of Yum China common stock for \$13 million at an average price of \$48.05 per share. As of September 30, 2022, approximately \$1.2 billion remained available for future share repurchases under the current authorization.
- The Board of Directors declared a cash dividend of \$0.12 per share on Yum China’s common stock, payable on December 20, 2022 to shareholders of record as of the close of business on November 29, 2022.
- Year to date ended September 30, 2022, the Company has returned approximately \$565 million of capital to shareholders in the form of share repurchases and cash dividends. The Company remains committed to a disciplined capital allocation strategy that balances returning capital to the shareholders and investing in the business for continued growth.

Digital and Delivery

- The KFC and Pizza Hut loyalty programs exceeded 400 million members combined, as of quarter-end. Member sales accounted for approximately 62% of system sales in the third quarter of 2022.
- Delivery contributed approximately 38% of KFC and Pizza Hut’s Company sales in the third quarter of 2022, an increase of approximately four percentage points from the prior year period. With the volatile COVID situation, delivery continued to be a popular option while dine-in volumes remained subdued.
- Digital orders, including delivery, mobile orders and kiosk orders, accounted for approximately 91% of KFC and Pizza Hut’s Company sales in the third quarter of 2022.

KFC and Pizza Hut Total	Third Quarter		Year to Date Ended 9/30

New-Unit Development and Asset Upgrade

- The Company opened 403 gross new stores, or 239 net new stores in the third quarter of 2022, mainly driven by development of the KFC and Pizza Hut brands.
- The Company remodeled 99 stores in the third quarter of 2022.

Restaurant Margin

- Restaurant margin was 18.8% in the third quarter of 2022, compared with 12.2% in the prior year period, primarily attributable to higher productivity, temporary relief and sales leveraging, partially offset by inflation in commodity, wage and utility costs, as well as increased rider cost associated with rising delivery volumes.

2022 Outlook

Yum China remains focused on capturing long-term opportunities in China. The Company's fiscal year 2022 targets remain unchanged from those originally disclosed on February 8, 2022:

- To open approximately 1,000 to 1,200 net new stores.
- To make capital expenditures in the range of approximately \$800 million to \$1 billion.

Other Updates

- On October 24, 2022, the Company's voluntary conversion of its secondary listing status to a primary listing status on the Main Board of the Stock Exchange of Hong Kong Limited ("HKEX") became effective. Yum China is now a dual primary listed company on the HKEX and New York Stock Exchange. The Company's common stock listed on the two exchanges will continue to be fully fungible. On the same day, the Company's shares of common stock traded on the HKEX were included in the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect.

In this press release:

- The Company provides certain percentage changes excluding the impact of foreign currency translation (“F/X”). These amounts are derived by translating current year results at prior year average exchange rates. We believe the elimination of the F/X impact provides better year-to-year comparability without the distortion of foreign currency fluctuations.
- System sales growth reflects the results of all restaurants regardless of ownership, including Company-owned, franchise and unconsolidated affiliate restaurants that operate our restaurant concepts, except for non-Company-owned restaurants for which we do not receive a sales-based royalty. Sales of franchise and unconsolidated affiliate restaurants typically generate ongoing franchise fees for the Company at an average rate of approximately 6% of system sales. Franchise and unconsolidated affiliate restaurant sales are not included in Company sales in the Condensed Consolidated Statements of Income; however, the franchise fees are included in the Company’s revenues. We believe system sales growth is useful to investors as a significant indicator of the overall strength of our business as it incorporates all of our revenue drivers, Company and franchise same-store sales as well as net unit growth.
- Effective January 1, 2018, the Company revised its definition of same-store sales growth to represent the estimated percentage change in sales of food of all restaurants in the Company system that have been open prior to the first day of our prior fiscal year, excluding the period during which stores are temporarily closed. We refer to these as our "base" stores. Previously, same-store sales growth represented the estimated percentage change in sales of all restaurants in the Company system that have been open for one year or more, including stores temporarily closed, and the base stores changed on a rolling basis from month to month. This revision was made to align with how management measures performance internally and focuses on trends of a more stable base of stores.
- Company sales represent revenues from Company-owned restaurants. Company Restaurant profit (“Restaurant profit”) is defined as Company sales less expenses incurred directly by our Company-owned restaurants in generating Company sales. Company restaurant margin percentage is defined as Restaurant profit divided by Company sales.

Reconciliation of Reported GAAP Results to Non-GAAP Adjusted Measures
(in millions, except per share data)
(unaudited)

In addition to the results provided in accordance with U.S. Generally Accepted Accounting Principles (“GAAP”) in this press release, the Company provides non-GAAP measures adjusted for Special Items, which include Adjusted Operating Profit, Adjusted Net Income, Adjusted Earnings Per Common Share (“EPS”), Adjusted Effective Tax Rate and Adjusted EBITDA, which we define as net income including noncontrolling interests adjusted for equity in net earnings (losses) from equity method investments, income tax, interest income, net, investment gain or loss, certain non-cash expenses, consisting of depreciation and amortization as well as store impairment charges, and Special Items.

The following table set forth the reconciliation of the most directly comparable GAAP financial measures to the non-GAAP adjusted financial measures.

⁽¹⁾ In the quarters ended September 30, 2021, as a result of the consolidation of the Lavazza joint venture, the Company recognized a gain of \$10 million from the re-measurement of our previously held equity interest at fair value, which was not allocated to any segment for performance reporting purposes.

⁽²⁾ In February 2020, the Company granted Partner PSU Awards to select employees who were deemed critical to the Company's execution of its strategic operating plan. These PSU awards will only vest if threshold performance goals are achieved over a four-year performance period, with the payout ranging from 0% to 200% of the target number of shares subject to the PSU awards. Partner PSU Awards were granted to address increased competition for executive talent, motivate transformational performance and encourage management retention. Given the unique nature of these grants, the Compensation Committee does not intend to grant similar, special grants to the same employees during the performance period. The impact from these special awards is excluded from metrics that management uses to assess the Company's performance. The Company recognized share-based compensation expense of \$2 million and \$5 million associated with the Partner PSU Awards for the quarter and year to date ended September 30, 2022, respectively, and nil and \$7 million for the quarter and year to date ended September 30, 2021.

⁽³⁾ The tax expense was determined based upon the nature, as well as the jurisdiction, of each Special Item at the applicable tax rate.

The Company excludes impact from Special Items for the purpose of evaluating performance internally. Special Items are not included in any of our segment results. In addition, the Company provides Adjusted EBITDA because we believe that investors and analysts may find it useful in measuring operating performance without regard to items such as equity in net earnings (losses) from equity method investments, income tax, interest income, net, investment gain or loss, depreciation and amortization, store impairment charges, and Special Items. Store impairment charges included as an adjustment item in Adjusted EBITDA primarily resulted from our semi-annual impairment evaluation of long-lived assets of individual restaurants, and additional impairment evaluation whenever events or changes in circumstances indicate that the carrying value of the assets may not be recoverable. If these restaurant-level assets were not impaired, depreciation of the assets would have been recorded and included in EBITDA. Therefore, store impairment charges were a non-cash item similar to depreciation and amortization of our long-lived assets of restaurants. The Company believes that investors and analyst may find it useful in measuring operating performance without regard to such non-cash item.

These adjusted measures are not intended to replace the presentation of our financial results in accordance with GAAP. Rather, the Company believes that the presentation of these adjusted measures provides additional information to investors to facilitate the comparison of past and present results, excluding those items that the Company does not believe are indicative of our ongoing operations due to their nature.

The above tables reconcile segment information, which is based on management responsibility, with our Condensed Consolidated Statements of Income.

- (1) Amounts have not been allocated to any segment for purpose of making operating decision or assessing financial performance as the transactions are deemed corporate revenues and expenses in nature.
- (2) Primarily includes revenues and associated expenses of transactions with franchisees and unconsolidated affiliates derived from the Company's central procurement model whereby the Company centrally purchases substantially all food and paper products from suppliers and then sells and delivers to KFC and Pizza Hut restaurants, including franchisees and unconsolidated affiliates that operate our concepts.
