CEO and CFO Comments

Joey Wat, CEO of Yum China, commented, "We are pleased with our continued strong performance in the third quarter, which was driven by our competitive positioning, leading digital capabilities and ongoing innovation across the business. We achieved our 12th consecutive quarter of system sales growth since the spin-off, highlighting the strength of our business model and demonstrating our ability to effectively adapt to changing market conditions. KFC delivered solid sales and profit growth as we strategically decreased promotion intensity to protect margins. Pizza Hut maintained positive sales momentum with a decline in margin during the quarter due to the important and necessary long-term investments in the revitalization program."

"We will continue to build on KFC's resilient business model, cement the revitalization of Pizza Hut, invest in the growth of our smaller brands and sharpen our industry-leading digital ecosystem, which enables us to meet customer demands and manage the business effectively," continued Ms. Wat. "We are cautiously optimistic about the future because we see significant growth opportunities in China, and we will focus on leveraging our competitive advantages to succeed in this dynamic environment."

Andy Yeung, CFO of Yum China, added, "I am very excited to have joined the Yum China team and am pleased to be reporting another strong set of quarterly results, which highlight Yum China's strength in many areas. We continued rapid expansion of our store network and maintained very healthy cash payback for our new stores. We also delivered strong sales, operating profit and EPS growth despite continued pressure from higher chicken and labor costs. In addition, we returned $109 million to shareholders through dividends and share repurchases in the quarter. Looking ahead, we will continue to focus on driving sales and managing costs while making prudent investments to drive long-term growth. As always, we remain committed to driving significant overall value to our shareholders."

Dividend and Share Repurchase

- The Board of Directors declared a cash dividend of $0.12 per share on Yum China's common stock, payable as of the close of business on December 17, 2019 to shareholders of record as of the close of business on November 26, 2019.
- During the third quarter, we repurchased approximately 1.4 million shares of Yum China common stock for $64.0 million at an average price of $44.70 per share.

Digital and Delivery

- As of September 30, 2019, the KFC loyalty program had over 200 million members and the Pizza Hut loyalty program had over 65 million members, an increase of 55 million and 15 million, respectively, year over year.

In this press release:

- The Company provides certain percentage changes excluding the impact of foreign currency translation ("F/X"). These amounts are derived by translating current year results at prior year average exchange rates. We believe the elimination of the F/X impact provides better year-to-year comparability without the distortion of foreign currency fluctuations.
- System sales growth reflects the results of all restaurants regardless of ownership, including Company-owned, franchise and unconsolidated affiliate restaurants that operate our restaurant concepts, except for non-Company-owned restaurants for which we do not receive a sales-based royalty. Sales of franchise and unconsolidated affiliate restaurants typically generate ongoing franchise fees for the Company at a rate of approximately 6% of system sales. Franchise and unconsolidated affiliate restaurant sales are not included in Company sales in the Condensed Consolidated Statements of Income; however, the franchise fees are included in the Company's revenues. We believe system sales growth is useful to investors as a significant indicator of the overall strength of our business as it incorporates all of our revenue drivers, Company and franchise same-store sales as well as net unit growth.
- Effective January 1, 2018, the Company revised its definition of same-store sales growth to represent the estimated percentage change in sales of food of all restaurants in the Company system that have been open prior to the first day of our prior fiscal year. We refer to these as our "base" stores. Previously, same-store sales growth represented the estimated percentage change in sales of all restaurants in the Company system that have been open for one year or more, and the base stores changed on a rolling basis from month to month. This revision was made to align with how management measures performance internally and focuses on trends of a more stable base of stores.
- Company Restaurant profit ("Restaurant profit") is defined as Company sales less expenses incurred directly by our Company-owned restaurants in generating Company sales. Company restaurant margin percentage is defined as Restaurant profit divided by Company sales.

Reconciliation of Reported GAAP Results to Adjusted Measures
(in millions, except per share data)
(unaudited)

In addition to the results provided in accordance with US Generally Accepted Accounting Principles ("GAAP") in this press release, the Company provides measures adjusted for Special Items, which include Adjusted Operating Profit, Adjusted Net Income, Adjusted EPS, Adjusted Effective Tax Rate and Adjusted EBITDA, which we define as net income including noncontrolling interests adjusted for income tax, interest income, net, investment gain or loss, depreciation, amortization and other items, including store impairment charges and Special Items. The Special Item for the year to date ended September 30, 2019 represents the impact from the US Tax Cuts and Jobs Act (the "Tax Act"), as described in the accompanying notes. The Special Item for the year to date ended September 30, 2018 represents a gain recognized from the re-measurement of our previously held equity interest in Wuxi KFC at fair value upon acquisition, as described in the accompanying notes. The Company excludes impact from Special Items for the purpose of evaluating performance internally. Special Items are not included in any of our segment results. In addition, the Company provides Adjusted EBITDA because we believe that investors and analysts may find it useful in measuring operating performance without regard to items such as income tax, interest income, net, investment gain or loss, depreciation, amortization and other items, including store impairment charges and Special Items. These adjusted measures are not intended to replace the presentation of our financial results in accordance with GAAP. Rather, the Company believes that the presentation of these adjusted measures provide additional information to investors to facilitate the comparison of past and present results, excluding those items that the Company does not believe are indicative of our ongoing operations due to their nature. These adjusted measures should not be considered in isolation or as a substitute for GAAP financial results, but should be read in conjunction with the unaudited Condensed Consolidated Statements of Income and other information presented herein. A reconciliation of the most directly comparable GAAP measures to adjusted measures follows.

The above tables reconcile segment information, which is based on management responsibility, with our Condensed Consolidated Statements of Income.

[1] Starting from the first quarter of 2019, our newly developed COFFii & JOY concept and e-commerce business became operating segments, as their financial results started being regularly reviewed by the Company's chief operating decision maker. Accordingly, our six non-reportable operating segments, reflecting the operations of East Dawning, Little Sheep, Taco Bell, Daojia, COFFii & JOY and our e-commerce business, are combined and referred to as All Other Segments, as those operating segments are insignificant both individually and in the aggregate. Segment financial information for prior quarters has been recast to align with this change in segment reporting. There was no impact on the condensed consolidated financial statements of the Company as a result of this change.

[2] Corporate and unallocated expenses comprise items that are not allocated to segments for performance reporting purposes. Amount includes revenues and expenses associated with transactions with franchisees and unconsolidated affiliates such as inventory procurement and other services provided to franchisees and unconsolidated affiliates. The Corporate and Unallocated column in the above tables includes, among other amounts, all amounts that we have deemed Special Items. See "Reconciliation of Reported GAAP Results to Adjusted Measures".
