CEO Comments

"I am pleased with our overall performance during the quarter, with same-store sales up 3% and system sales up 7%, on the back of continued strength at KFC. Operating profit, restaurant margin and net income all showed robust improvement." said Micky Pant, CEO.

"We are committed to building one of the world's leading restaurant companies, and are executing against a plan that we have developed towards this goal. We are making progress in the key themes we are investing in – loyalty programs, digital and delivery capabilities, and continued upgrade of restaurant assets and optimization of store formats. We are pleased to report some encouraging results: loyalty members for KFC and Pizza Hut have

surpassed 100 million in total, and mobile payment exceeded 40% of our company sales in the second quarter. Over 4,900 of our restaurants offered delivery service. Delivery sales accounted for 13% of company sales in the second quarter.

We also completed the acquisition of an 80% stake, on a fully diluted basis, in Daojia, an online aggregator platform with two brands focusing on higher-end delivery market segment, for a cash consideration of \$36.7 million to the selling shareholders and a capital contribution of \$25 million to Daojia. We see this acquisition as complementary to our existing delivery business, and it provides valuable operational and technological expertise."

New-Unit Development and Asset Upgrade

- Opened 90 new restaurants during the second quarter, and 223 year to date.
- Remodeled 197 restaurants during the second quarter, and 229 year to date, led by KFC.

Reconciliation of Reported Results to Non-GAAP Measures

(amounts in US\$ million)

(unaudited)

In this press release:

- The Company provides certain percentage changes excluding the impact of F/X. These amounts are derived by translating current year results at prior year average exchange rates. We believe the elimination of the F/X impact provides better year-to-year comparability without the distortion of foreign currency fluctuations.
- System sales growth reflects the results of all restaurants regardless of ownership, including Company-owned, franchise and unconsolidated affiliate restaurants that operate our concepts, except for non-Company-owned restaurants for which we do not receive a sales-based royalty. Sales of franchise and unconsolidated affiliate restaurants typically generate

ongoing franchise fees for the Company at a rate of approximately 6% of system sales. Franchise and unconsolidated affiliate restaurant sales are not included in Company sales on the Condensed Consolidated and Combined Statements of Income; however, the franchise fees are included in the Company's revenues. We believe system sales growth is useful to investors as a significant indicator of the overall strength of our business as it incorporates all of our revenue drivers, Company and franchise same-store sales as well as net unit growth.

- Same-store sales growth is the estimated percentage change in sales of all restaurants that have been open and in the Company system one year or more.
- Company Restaurant profit ("Restaurant profit") is defined as Company sales less expenses incurred directly by our Company-owned restaurants in generating Company sales. Company restaurant margin percentage is defined as Restaurant profit divided by Company sales.

In addition to the results provided in accordance with US Generally Accepted Accounting Principles ("GAAP") in this press release, the Company provides non-GAAP measures which present Operating Profit before Special Items, Diluted Earnings Per Common Share before Special Items, Effective tax rate before Special Items and Adjusted EBITDA, which we define as net income including noncontrolling interests adjusted for income tax, interest income, depreciation, amortization and other items, including store impairment charges. Special Items consist of provision for losses associated with the sale of the aircraft and impact of the redemption of the Little Sheep noncontrolling interest which are described in (a), (b) and (c) in the accompanying notes. The Company excludes impact from Special Items for the purpose of evaluating performance internally. Special Items are not included in any of our segment results. These non-GAAP measures are not intended to replace the presentation of our financial results in accordance with GAAP. Rather, the Company believes that the presentation of these non-GAAP measures provides additional information to investors to facilitate the comparison of past and present results, excluding those items that we do not believe are indicative of our ongoing operations due to their nature. These non-GAAP measures should not be considered in isolation or as a substitute for GAAP financial results, but should be read in conjunction with the unaudited Condensed Consolidated and Combined Summary of Results and other information presented herein. A reconciliation of these non-GAAP measures to the most directly comparable GAAP measures follows.
